Gladiolus Novelties.

The Queen.—Undoubtedly the most beautiful Gladiolus in cultivation. The flowers are large, rich and velvety, the ground color of the petals a pearly white, which is striped with a rich carmine, shaded and blotched and marbled with rosy purple. The plant is a strong grower with a stout flower stalk about three feet high, and remarkably filled out with blooms on all sides.

Per doz., \$2.00; per 100, \$15.00.

New Seedling "May".—A large, straight, full spike of bloom with well opened flowers, white ground flamed with wide feathery bands of bright rose. The spike is double, and most bulbs will throw up two flower stalks. Forces well and nearly pure white. Per 100, \$2.75; per 1000, \$18.00.

Mt. Vernon Hybrids. New.—This is a class of large flowering Gladiolus, crossed by Dr. Van Fleet under many years' careful work with Nanceaus, Lemoines and similar types, they are equal in size to the Childsii, with greater variety in types and coloring, and sure to supplant all the older Gladiolus sorts as soon as known. 100, \$3.00.

Gladiolus, Snow White.

The best white Gladiolus in cultivation. Nearly the entire flower is a perfect paper white, with a slight cream shade on the lower half of each petal; of wonderful vigorous growth, giving an average of three stems to each bulb; many have five or more.

Doz., \$1.50; 100, \$11.00.

CHILDSII.

This most important introduction of recent years is a class of hybrids originally raised by Max Leichtlin, and for the past 6 or 8 years much improved and increased by Messrs. Hallock & Son.

A most important and valuable introduction. The stalks are tall, erect, often standing four to five feet high, with spikes of bloom over two feet in length. As soon as the price will justify they will supercede all others. Per doz., \$1.50; per 100, \$8.50.

Lilium Harrisii.

We control this year the best stocks in the Bermuda Islands. Don't buy until you get our prices. We can and will meet the market, and provide quality, prompt delivery and full count, and healthy bulbs.

Reliable TUBEROSE Bulbs.

Our stock of **Excelsior Pearl** has been grown on contract for several years from the "Original Hallock Strain," and is not to be mentioned on the same day as the ordinary commissioned stock of Pearls, consigned and sold through feed stores, junk shops, etc., at 30 cents a bushel. Tuberoses are a **very short crop** this year, and orders should be placed **early to secure the best**.

CANNAS.

We make plans and estimates for Canna beds. Write us, stating space you have and approximate amount you can expend.

The use of these grand SUMMER BEDDERS is surely increasing fast notwithstanding the predictions of those who had none. With the greatly reduced prices of the past two years the new French sorts are replacing all the older kinds rapidly. We repeat it—the New Cannas have come to stay and the advertising given them the past three years tells on retail demand.

FLORISTS' • COMBINATION • SET.

GRAND NEW SORTS FOR 1896.

WM. SIMPSON.

Wm. Simpson (Jos. Hancock).—Is the earliest large Chrysanthemum grown, some of the flowers measuring 10 to 11 inches in diameter. Has been cut as early as October 15th. In color a pleasing shade of pink, a little lighter than Maud Dean, in form, like Mrs. E. G. Hill, but a deeper flower. A good, strong, healthy grower, stiff stems, four to five feet high, with clean foliage. N. C. S. Certificate at Philadelphia. Each, 50c.; per doz., \$5.00; per 100, \$35.00.

Lenawee (N. Smith & Son.)—An incurved Japanese of the purest white, resembling The Queen in contour and general appearance; but surpassing that popular variety in two very desirable qualifications, namely: it is double to the center and does not drop its petals. Has a stout stem either from crown or terminal buds, but is shorter where the latter is selected. This gives another 7½ inch bloom the first of November. 4½ feet. Each, 60c.; per doz., \$6.00.

Marion Cleveland (Spaulding).—Immense, high, round solid bloom, with broad massive cupping petals. Ivory white, shading delicate lemon yellow. Habit almost as dwarf as Ivory. Stem stiff and erect with magnificent foliage close up to the bloom. Ready to market October 25th. Awarded N. C. S. Certificate. Each, 50c.

Sun-Clad (N. Smith & Son.)—A Japanese of the brightest yellow, incurved with a whirled center. Maturing October 20th. Coming at this early date, and being brighter in color than Golden Wedding, it will immediately take the highest position among our popular commercial sorts. Height, 3 feet. First-class Certificate, C. S. A. Each, 60c.; per 100, \$6.00.

Yanoma (N. Smith & Son.)—Latest White, and to the best of our belief, later than any white in commerce. Under ordinary cultivation it is at its best November 30th, and if retarded slightly, can be had in the best condition for Christmas. Reflexed, somewhat the form of Vivian Morel. Stem so short the outer petals fall over the foliage. 4 feet high. First-class Certificate C. S. A. Each, 35c.; per doz., \$3.50.

Mrs. Perrin (Hill).—Rose-pink Ivory; early midseason; 4 ½ feet, blooms nicely rounded and incurving; rose-pink within, and glistening pink without, rather slender stems, but perfectly stiff, and very beautifully covered with foliage, a fine grower. Received N. C. S. Certificate, scoring 100 points; secured first premium for best pink at Boston, Philadelphia and Chicago. Each, 50c.; per doz., \$5.00; per 100, \$35.00.

OTHER NOVELTIES OF 1896.

Gretchen Buettner (Buettner).—A large, beautiful white of great depth; distinct in color and form. Strong stemmed, fine foliage. 3 feet; crown bud. Certificate of Merit Horticultural Society, Chicago. First-class Certificate N. C. S. Each, 50c.; per doz., \$5.00.

Mrs. E. Buettner (Buettner).—A beautiful clear yellow reflexed flower, in form like Morel, with excellent form and foliage. Late. 3½ feet; crown bud. First-class Certificate N. C. S. Each, 40c.; doz., \$4.00.

Miss Agnes L. Dalskov (Hansen).—Pink-Ivory, the sensation of the year. A sport from Ivory, identical with its parent, except in color, which is a beautiful shell pink. This variety had a phenomenal sale in the New York market during the present season. Each, 20c.; per doz., \$2.00.

Modesto. Exceptionally meritorious. As expressed by several experts "the finest yellow yet produced either for exhibition or the trade." Intense in color, unsurpassed in size; of an incurved, slightly whirled form, with very high, full center. Maturing Nov. 15th. Each, 60c.; doz., \$6.00.

Violescent. A magnificent variety for exhibition or commercial purposes, especially where lustrous blooms are required for Thanksgiving trade. It is of enormous proportions, building up with perpendicular sides to the height of five inches, finishing with a slightly rounding, incurved center; color white, with lower petals delicately tinged lavender. Maturing November 20th. Height, 5½ feet. Each, 60c.; doz., \$6.00.

Mrs. W. C. Egan (Dorner).—Of the Ada Spaulding type, but much larger. More perfect in form and has great depth. Color crimson pink at the base, shading at the apex to pale sulphur. Height, 3½ feet. Matures Oct. 15 to 20th. Certificate at Chicago and Philadelphia. Each, 50c.; doz., \$5.00.

New York. (Spaulding).—Very large incurved Japanese, densely packed with petals, which are regularly formed, filling up well to the center; of great substance and regular outline; color white, foliage and stem good and able to sustain the massive bloom. Awarded 1894, National Certificate at New York and Philadelphia, also silver medal; and at New York, 1895, a second certificate by same society. Each, 60c.; doz., \$5.00.

Daydawn. Stiff stem, clothed with foliage up to the flower. A very easy doer, and bears close bench planting, color white with lemon center upon opening, gradually becoming pure white, petals shorten toward the center. Received N. C. S. Certificate. October 15th. 3 feet; flower 7½ inches in diameter. Each, 35c.; doz., \$3.50.

One each of above 10 sorts for \$4.00.

SPECIAL OFFER: One each of all sorts on this page for \$6.50.

Autumn Bride. (Exhibited as October Queen.—As earliness is generally estimated by comparison with existing sorts, it will be best understood by stating that the first and last cut of Mad. F. Bergman was only three days in advance of Autumn Bride. It is pure white, incurved, very closely resembling The Queen in form and size; showing no center, with short, stiff stems, and attaining but 3 feet in height. Each, 35c.; doz., \$3.50.

Edward A. Kimball. Japanese incurved, belonging to the Mrs. Charles Wheeler section; of the same color, crimson within and old gold without. Incurves very closely showing but little of the crimson, giving a distinct and fine color effect. Perfectly double, with a fine high-rounded form. Perfecting Nov. 1st. 3 feet. Each, 60c.; doz., \$6.00.

CARNATIONS TO GROW

✿✿ FOR 1896. ✿✿

OUR STOCK is entirely free from rust and in the best of health. We do not grow for Cut Flowers and therefore the best results are ensured. We do not send out rooted cuttings but supply well rooted plants from flats.

VARIETIES OF 1894.

ALASKA. The flowers are white as the driven snow, plants grow erect and self-sustaining. Very large flowers. Long stemmed and a most excellent keeper and shipper. It is as far ahead of McGowan as McGowan is ahead of Puritan. It is the admiration of all who have seen it grow.

ROSE QUEEN. In Rose Queen we have a Florists' Carnation of that most desirable and taking soft pure rose color, so much admired and demanded by cut flower buyers. The flowers are large and well formed. Produced on very heavy and stiff stems. This is the healthiest and cleanest growing Carnation we have ever seen. We believe that Rose Queen is a money maker for the cut flower grower, and we offer it in great confidence that it will prove just as we say.

MINNIE COOK. This is the leader in the variegated or fancy type. It may be regarded as a mammoth Chester Pride, with similar markings and several times the size and a wonderfully vigorous grower. The flowers may be cut with stems fifteen to twenty inches in length. The flowers are massive and perfect in form and its delicate markings combine to make it a thing of beauty.

METEOR. Deep brilliant crimson scarlet, blooms 3 inches in diameter. On a firm strong stem 14 to 18 inches long. Plant, a vigorous grower, clean foliage and a free bloomer.

STORM KING. Snow white, very large flowers on good stems 16 to 20 inches long; calyx good and not inclined to burst.

DEAN HOLE. Bright clear yellow with scarlet stripes in the way of Buttercup but a much finer variety, blooms more freely.

LIZZIE GILBERT. Bright scarlet, large flowers, strong grower. Good long stems, does not break in the calyx, it is fragrant, early and not a cropper.

KOHINOOR. White, flowers large, full, deeply fringed, occasionally touched with a pink blush, long erect stems. Plant growing strong and branching low down.

Price of above, strong transplanted plants from flats. Doz., 75c.; 100, \$5.00; 1000, \$40.00. Pot plants per doz., \$1.00; per 100, \$7.00; per 1000, \$60.00.

ALASKA.

ROSES

PERLE DES JARDINS.

This universal cut-flower rose, planted and grown by every Florist's outsells any other variety. Our large demand every year enables us to grow it largely—and we are making a record for strong, healthy plants, creditable to our establishment. Get our samples, and see what grade we supply.

Price, 2½ inch, \$4.00, per 100; 3½ inch pots at \$10.00 per 100.

Bridesmaid.

This has according to the judgment of the best growers taken the place of all the Catherine Mermet types. In other words, holds the field up to date, as a pink rose. As is well known this sport is identical with Catherine Mermet except in color, which is a rich bright pink, retaining the strong color even through cloudy weather. We are convinced that this is the most profitable pink rose. Our plants are strong, healthy and clean. 2½ in. pots, \$4.00; 3½ in. \$10.00 per 100.

The Bride.

The best pure white rose for Florists' use, out-classing all others for productiveness and fine quality of flower. Grown by all the leading rose men of the country. In habit and growth it is identical with Bridesmaid, color being a pure ivory white. More plants of it are benched, and more cut blooms sold by all the flower dealers than any other white Rose. Our stock is free from mildew. Price, 2½ inch pots, \$4.00 per 100; 3½ inch pots per 100, \$10.00.

BRIDESMAID.

THE BRIDE.

THE GREAT POT ROSE, CLOTHILDE SOUPERT.

Introduced by J. C. Vaughan. We are headquarters for best stock. Selected plants only. Price, 2 inch, per 100, \$3.00; 2½ inch, per 100, \$4.00; 3 inch, per 100, \$6.00; 3½ inch, per 100, \$10.00.

NEW YELLOW SOUPERT "MOSELLA."

This splendid novelty we have just secured from Germany; its origin is almost identical with that of the original Soupert, a cross of the Polyantha and the beautiful Tea Rose, Madam Falcot. It blooms in profuse clusters of 3 to 5 flowers, which are very double, ball shaped and open like a Camellia flower. The petals are tinted white, on beautiful light yellow ground extending to the middle of the petals. Price, per dozen, \$1.50; per 100, \$8.00.

New Rose, "Pink Soupert."—We find it a very fine, free-flowering variety, much resembling Hermosa, but more double and flowering more freely; it shows the Polyantha blood in the full cluster bloom and will make a handsome contrast bedded or grown with C. Soupert. The flowers are not so large, full and handsome as our original Soupert, but fill a place because of their brightness and freedom. The habit of the plant is almost identical with C. Soupert, a rapid grower and quick to bloom. Our stock is of the best. 2 in. pots, per 100, \$4.00; 2½ in., per 100, \$6.00; 3 in. pots, per 100, \$10.00; 3½ in. per 100, \$15.00.

"Princess Bonnie." New.—The flowers are produced on strong, erect stems, and, with the exception of color, strongly resemble William Francis Beunet. The buds are long, perfectly formed and retain their shape well after cutting. In color it is a rich solid crimson. The color of the outside petals is as brilliant as a Jack. 2½ in. pots, doz., \$1.50; per 100, \$10.00.

Crimson Rambler.—The new climbing Polyantha, introduced last season. Its large clusters of bright crimson flowers have never been equaled in this class of roses. Per doz., \$1.00; per 100, \$8.00; 3½ inch, per doz., \$1.50.

Zepherin Drouat.—Hardy climbing rose of strongest growth, attaining in one season a height of 15 to 20 feet. The flowers are large and double and of a fine bright rose color. Per doz., \$1.00; per 100, \$8.00.

STROBILANTHES DYERIANUS. ROYAL PUPLE.

A new house and bedding plant; was awarded the Gold Medal offered by the King of the Belgians at the Ghent exhibition. It forms a compact bush 18 inches high, with leaves 6 to 9 inches long, 3 to 4 in. wide, and of the most intense *metallic purple* color, shading into light rose with a light green margin, a combination unapproached by any other plant. The flowers are a lovely violet-blue, very beautiful. Mr. Pfister, of the White House, Washington, put it in the open border, in a very exposed position where it grew and colored up beyond all expectation. It has created a veritable sensation wherever exhibited, and will be grown by the thousand as a bedding plant, while at the same time one of the most brilliant decorative plants in existence; for table ornament, parlor or greenhouse, nothing can equal it. Price, 2½ inch pots, per dozen, 50c.; per 100, \$4.00.

Most profitable plant, producing spikes of pure white flowers from 4 to 6 inches long in the greatest abundance the entire year. The flowers are exactly like a Sweet Pea and last when cut. CARNATION

THE GUILLAUD OR RIVIERA MARKET.

This we offered for the first time last season; has been obtained by careful selection from the Margaret, and is far superior to it or any other Carnation seed ever offered; the flowers are of larger size, better substance, greater doubleness, and more varied markings and colorings, many having grounds and shadings of yellow, a color which is very rare in seedling Carnations. They will also, like the Margaret, bloom when only about three months old, and taken up in the fall the plants will bloom during the winter, yielding an abundance of very double flowers. It is an everbloomer and does well in the house and out-doors. Trade pkt., 25c. 150 seeds

Carnation Mad, Guillaud. In this we have the best yellow Carnation that will bloom from seed in four months. The flowers are very large and double, borne on long, stiff stems, and clear golden yellow, with only an occasional pink or red streak. 100 seeds, 50c.

Carnation, Dwarf Margaret, Giant White. Flowers very large and double. pure white, with only an occasional pink streak; plants short and stocky, with stiff stalks. Trade pkt., 35c.

NEW DOUBLE PERPETUAL CARNATION.

Our Seed is Direct from the Originator.

As early as the Margaret Carnation, this new sort will be found invaluable for Florists. The plants grow up to 20 inches in height, are very even in growth, and have handsome foliage. The stalks are very stiff, like wire, and the flowers large and very double. The calyx rarely ever bursts, and the percentage of double flowers is very great, about 90 per cent. They are, as the name indicates, perpetual bloomers, and having seen these Carnations bloom in Mr. Chabaud's garden last summer, we have personal knowledge of the superior qualities of this sort. Large Flowering Japanese Emperor Chrysanthemums. The result of this seed is liable to surpass anything we have seen so far in Chrysanthemums. The flowers are double, smooth or hairy, of gigantic size, and their colors are magnificent. There is nothing that can surpass them in beauty and effect. All shades and colors will be found, especially blue, even almost black flowers will be amongst them. Only the best flowers and colors have been seeded, all the common ones have been strictly excluded. This is what our grower says about them; we have not yet tried them as they only came out this year, but if only half of the above is true, grand results may be expected from this seed. Why not try them? Pkt., 35c.

PANSIES.

PANSIES ARE ONE OF OUR SPECIALTIES and we take special pride and extraordinary pains to have the **Very Best Seed** obtainable, regardless of cost, and we believe that the increasing demand for our seeds, proves that these efforts are appreciated, and we ask you to **try our Seed and be convinced** of the above facts if you have never seen our Pansies in bloom. Crop 1895.

VAUGHAN'S INTERNATIONAL PANSY MIXTURE.

Florists who cater to a fancy retail trade must have the best Pansies that are to be had. There are very fine Pansies to be had in Europe and the mixtures can be had at low prices, but our experience has taught us that we must decidedly make our own mixtures. Pansies have always been one of our specialties and we have always made it a point whenever one of our firm was on a tour of inspection through the European seed farms to pay particular attention to Pansies and we have in this way succeeded in locating and securing the choicest strains, especially of some florists whose entire stocks have always been taken up by some local seedsmen. All these special strains, as well as the best Giant and German Pansies, are contained in *Vaughan's International Pansy Mixture* and in the proper proportion; many red shades will be found in it this year. We are sure that plants raised from this mixture will secure you more trade.

VAUGHAN'S CALIFORNIA MAMMOTH SWEET PEAS.

Personal inspection of over seventy-five varieties in the Mammoth Sweet Pea Fields of California and careful comparison of the scores of Novelties both on the growing plants and bunched for cut flowers, has enabled us to make the best selections and to describe them truly.

New Sweet Pea, "AMERICA."

A California Seedling.

See Colored Illustration, painted from Nature, on back cover of our Retail Catalogue.

This grand new Pea has been secured exclusively by us from Messrs. Morse & Co., the famous Sweet Pea specialists and seed growers of the Coast. Is more distinct and striking than any other variegated Sweet Pea in existence, and is of the large flowering type. Its color is a white ground, and through the center of the standard is a wide carmine scarlet blotch, veined with fine scarlet lines running toward the edges and showing in the same manner on the wings. The dashing contrast of the heavy scarlet blotch on the white ground makes the blossoms very effective in a mass of cut blooms or when flowering in the garden. It is indispensable for any complete collection of colors in Sweet Peas.

Pkt., 15c.; 2 for 25c.; 5 for 60c.; 10 for \$1.00.

Rev. Mr. Hutchins, the highest authority on Sweet Peas, says:

"I had new Sweet Pea 'America' in bloom this summer in my collection. It is a heavily striped variety of the intensest scarlet. I like it very much. The color is so intense in contrast with the white, and it is such a bold blood red. In size it also excels. It is a fine grower and a lavish bloomer."

BLANCHE BURPEE.—A new large white; one of the finest yet produced. Pkt., 10c.; oz., 30c.; ¼ lb., \$1.00.

Pkt., (35 seeds) 10c.; oz., 40c.

NOVELTIES.

NEW SWEET PEA "AMERICA."

New Dwarf Sweet Pea, "CUPID."

Its pure white flowers are of the full size of those of the ordinary Sweet Pea, freely produced and fragrant. The entire height of the plants is about six inches, and yet there is nothing stunted looking about them. By some freak of nature it has lost the habits of a vine, and makes a low tuft of short branches which hug the ground, showing no tendency either to trail or climb. But it has not lost the free blooming habit, and thus its blossoms, which are uniformly the purest possible white, form a low mass that nearly hides the foliage; has all the fragrance of the most favored Eckfords. The flowers are of the size of the *Emily Henderson*. It bears two and three blossoms on the end of each stem—all opening about the same time, so that it is unnecessary to pick a stem with a bud and an open blossom. Our supply of seeds direct from the introducers and we offer it at their prices. Pkt., (20 seeds) 25c.; 5 pkts., \$1.00; half size pkt., (10 seeds) 15c.; 2 for 25c.; 10 pkts., \$1.00.

MRS. JOSEPH CHAMBERLAIN.—White, heavily striped and flaked with rose; large. Pkt., 5c.; oz., 20c.; ¼ lb., 60c.

METEOR.—An improved Orange Prince, though not quite of the best Eckford shape; standard orange pink; wings bright pink. Pkt., 5c.; oz., 20c.; ¼ lb., 80c.

OVID.—A bright pink, laced with rose; color between Her Majesty and splendor; the large flower is a magnificent brilliant carmine. Oz., 10c.; ¼ lb., 20c.; lb., 60c.

PRINCESS VICTORIA.—Standard bright scarlet, wings cardinal; large flowering. Pkt., 5c.; oz., 10c.; ¼ lb., 30c.; lb., \$1.00.

ELIZA ECKFORD.—Very dark blush with the center rib and standard a fine line of carmine pink. Pkt., 10c.; oz., 35c.; ¼ lb., \$1.25.

New Giant Striped Verbena.

There are very few attractive striped flowers, and none can compare with this new Verbena. The flowers are striped, splashed and streaked in reds, pinks and blues on a white ground in the most wonderful fashion. This new sort is particularly well adapted for hanging baskets, rustic stands and the open borders.

Pkt., (200 seeds) 25c.

New Early Flowering Cosmos.

There was but one objection to their giving general satisfaction, and that is their late flowering habit. The plants require a very long time to develop, and that brings their flowering season late in the fall. This objection will not be found in our "early flowering" strain. Seed sown in the open ground in the beginning of May will produce blooming plants in August, and will continue to flower until late in fall.

Pkt., (250 seeds) 20c.; ¼ oz., 50c.

New Yellow Cosmos.

Is a distinct new variety which blooms all summer and fall. Flowers sulphur yellow, from one to one and one-half inches in diameter, while the plants attain a height of about two feet. Pkt., 10c.

NOVELTY CANNA SEED.

Saved from New Varieties only.

Pkt., 20 seeds, 25c.

CENTAUREA MARGARET.

Centaurea Margaret.

Grows about eighteen inches high and produces large, pure white flowers (our illustration represents one in natural size) of the sweetest fragrance. Being produced on long, stiff stems, the flowers are most admirably adapted for bouquets, vases, etc., especially as they keep in good condition for a week after being cut. It is as easily grown as a Bachelor's Button, to which family it belongs. Pkt., 25c.; ¼ oz., \$1.00.

Vegetable Seeds.

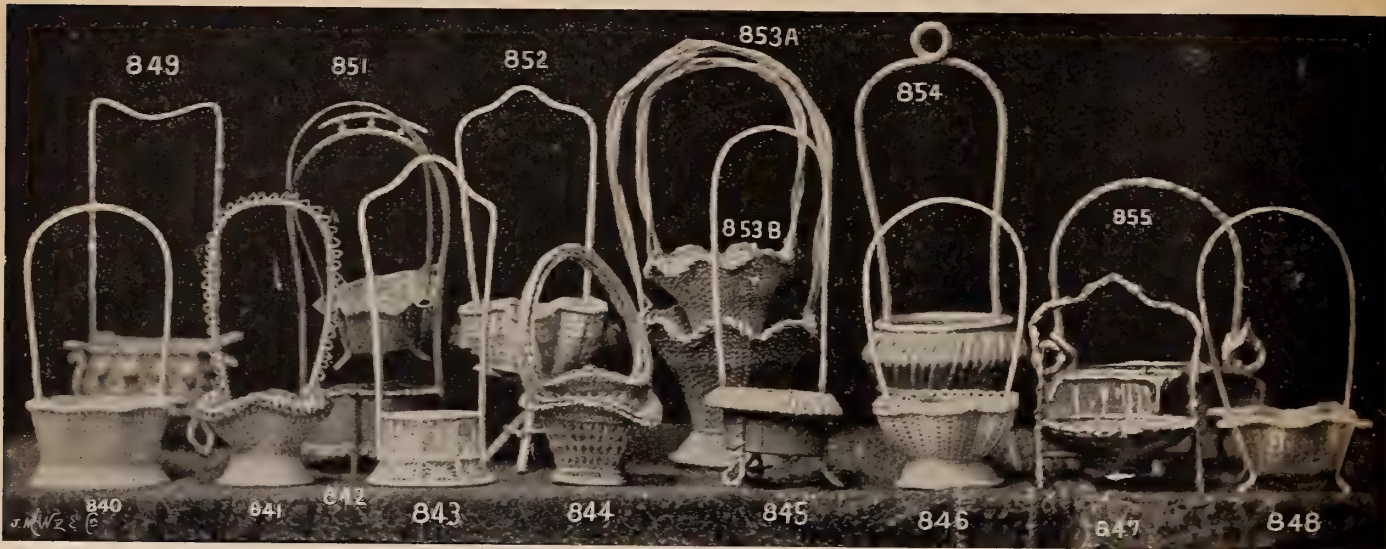

We wish to call special attention to our Market Gardeners' strains of Vegetable Seeds, which are all pure, fresh and reliable. Market Gardeners' Special Price List sent on application.

Grass Seed.

THE CHICAGO PARKS "LAWN GRASS MIXTURE" which we have put up and sold for fifteen seasons past, is justly the most widely and favorably known of any sold in the West; it consists of a fine lawn, and never fails to give satisfaction. We can furnish it put up in neat pasteboard boxes, with directions for sowing, at low rates. Per lb., in 1 pound packages, 18c.; in ½ pound packages, 20c. per pound; in bulk, per bushel, \$2.00.

Lawn Seed.—A good mixture; per bushel, \$1.50.
